#### I. INTRODUCTION (SIZE 10 & BOLD)

(Size 10 & Normal) This document is a template. An electronic copy can be downloaded from the conference website. For questions on paper guidelines, please contact the conference publications committee as indicated on the conference website. Information about final paper submission is available from the conference website.

#### II. PAGE SIZE AND LAYOUT

Set your page as A4, width 210, height 297 and margins as follows [3]:

Left Margin 17.8 mm (0.67")  
Right Margin 14.3 mm (0.56)  
Top Margin – 17.8 mm (0.7")  
Bottom Margin – 17.8 mm (0.7")

You should use Times Roman of size 10 for all fonts in the paper. Format the page as two columns:

Column Width 86.8 mm (3.42")  
Column Height – 271.4 mm (10.69")  
Space/Gap between Columns - 5.0 mm (0.2").

#### III. PAGE STYLE (SIZE 10 & BOLD)

All paragraphs must be indented. All paragraphs must be justified, i.e. both left-justified and right-justified.

##### A. Text Font of Entire Document (Size 10 & Bold & Italic)

The entire document should be in Times New Roman or Times font. Type 3 fonts must not be used. Other font types may be used if needed for special purposes.

##### B. Body paragraphs

The main text for your paragraphs should be 10pt font

1) **Level-1 Heading:** (Size 10 & Bold & Italic) A level-1 heading must be in Small Caps, centered and numbered using uppercase Roman numerals. For example, see heading "III. Page Style" of this document. The two level-1 headings which must not be numbered are "Acknowledgment" and "References".

2) **Level-2 Heading:** (Size 10 & Bold & Italic) A level-2 heading must be in Italic, left-justified and numbered using an uppercase alphabetic letter followed by a period. For example, see heading "C. Section Headings" above.

3) **Level-3 Heading:** (Size 10 & Bold & Italic) A level-3 heading must be indented, in Italic and numbered with an Arabic numeral followed by a right parenthesis. The level-3 heading must end with a colon. The body of the level-3 section immediately follows the level-3 heading in the same paragraph. For example, this paragraph begins with a level-3 heading.

#### IV. FIGURES AND TABLES

Place illustrations (figures, tables, drawings, and photographs) throughout the paper at the places where they are first discussed in the text, rather than at the end of the paper. Number illustrations sequentially (but number tables separately). Place the illustration numbers and caption under the illustration in 10 pt font. Do not allow illustrations to extend into the margins or the gap between columns (except 2-column illustrations may cross the gap). If your figure has two parts, include the labels "(a)" and "(b)".

**Figure 1:** Testing data- load current (amperes)

**Chart -1:** Name of the chart

**Fig -1:** Name of the figure

**Table -1:** Name of the Table

## V. EQUATIONS

If you are using *Word*, use either the Microsoft Equation Editor or the *MathType* add-on (<http://www.mathtype.com>) for equations in your paper (Insert | Object | Create New | Microsoft Equation *or* MathType Equation). “Float over text” should not be selected.

Number equations consecutively with equation numbers in parentheses flush with the right margin, as in (1). First use the equation editor to create the equation. Then select the “Equation” markup style. Press the tab key and write the equation number in parentheses.

$$E = \sum_{p=1}^P \sum_{k=1}^K (\delta_{pk}^o)^2 \quad (1)$$
